[Energy Storage Australia 2025 . energy.gov](https://www.energy.gov.au/energy-storage-australia-2025)

Energy and climate-related policies have been accelerated by both state and federal governments, and for many companies the time feels right to invest in energy storage. This event gathers together investors, developers, IPPs, grid operators, policymakers, utilities, energy buyers, service providers, consultancies and technology providers under one roof.

## Address to the Australian Energy and Battery Storage Conference ...

Storage, and in particular the need for Long Duration Energy Storage (LDES), is the ignored crisis within the energy crisis. Well, at least here, it cannot be said to be ignored. There is a lot of lazy, glib talk about how the transition to net zero requires new technologies, innovations yet to spring from the imagination of a new generation of inventors.

## The Australian Energy & Battery Storage Conference
