

3dr solo power module

Overview

How does the 3DR solo app work?

1.1.3 The “3DR Solo” app outputs a live video stream from an onboard GoPro® camera to an Android or iOS device. The app allows you to view the live video with overlaid telemetry and access a simplified graphic interface for controlling Solo’s advanced functions. Motors and Propellers Solo’s arms are labeled one through four on the ends of the arms.

How to get telemetry from 3DR solo?

3DR Solo uses smart BMS in each Solo battery which will give battery telemetry to Solo and ground station. There are different ways to get this information. a) Don’t have telemetry: Solder the battery connectors directly to the Solo board. You need then to use a LiPo alarm and/or timer. It works but it is not what we want.

How do I contact 3DR support?

Support 3DR Support is here to help you get the most out of Solo. If you have any questions, please contact us at support@3dr.com or give us a call at 1 (855) 982-2898 (toll free in the US and Canada) or direct at +1 (858) 225-1414. Solo and connect the app to Solo Wi-Fi.

How do you Power a solo smart battery?

As a lithium polymer battery, the Solo Smart Battery requires specific. Powering To power Solo, insert the battery into Solo’s battery bay and slide the battery forward until it clicks into place. Press and hold the battery power button to turn on Solo.

How do I calibrate a 3DR solo?

If you have any questions, please contact us at support@3dr.com or give us a call at 1 (855) 982-2898 (toll free in the US and Canada) or direct at +1 (858) 225- 1414. Solo and connect the app to Solo Wi-Fi. Select Level Calibration

from the Solo menu, and follow the prompts to place Solo perfectly still on each side in turn.

How do I update my 3DR controller?

For Android, you must also install the “3DR Services” app to your device. Ensure that both the controller and Solo are powered, the controller has at least 50% battery remaining, and the app is connected to Solo Wi-Fi. The total update process can take up to 10 minutes.

3dr solo power module

3DR Solo Review

Review of 3DR Solo powered by the Slant community. Specs Update Weight 3.3 lbs. (1.5 kg) / 3.9 lbs. (1.8 kg) This issue is likely due to the positioning of the module. Instead of having a small mast on top of the drone for GPS and dual GPS modules (one

3DR Solo with Lilon 9000mAh battery , up to 30min flight time

For me the power module is the best solution. I have an original Solo battery with 75% (3900mAh) capacity left. Compared with the Lilon batteries it does not make much sense to use it. I could take it a part and make normal 4S battery out of it. For now I keep it

3DR Solo with Lilon 9000mAh battery , up to 30min flight time

With the original BMS you can charge any 4S battery of any size that supports 3.4A charging current up to 4.2V per cell. What this means is lets says you have 6 Lilon ...

Modifier les batteries du SOLO 3DR - DOMOTICS

d) Utiliser un module d'alimentation: Un power module permet d'utiliser n'importe quelle batterie et d'utiliser vos propres paramètres de RTL. Il n'y a pas de limite de 5200mAh. Et cela économise du poids.
