

Agratas energy storage solutions private limited

Overview

What is Tata Group & agratas energy storage solutions deal?

The deal includes a joint memorandum of understanding between Tata Group subsidiary Agratas Energy Storage Solutions and the government of the western state of Gujarat under the new Electronics Policy (2022-28).

Who owns agratas battery?

Agratas is an Indian company that was recently founded by JLR's parent company Tata Group. JLR, the company that used to be known as Jaguar Land Rover, has announced details about its battery sourcing strategy for next-generation models.

What does agratas do?

Agratas will design, develop and manufacture high-quality, high-performance, sustainable battery solutions for multiple applications to match its customers' requirements. The company's strategic growth plan for its flexible manufacturing capacity will begin with a rapid industrialisation phase and the start of production in 2026.

Who will agratas support?

Agratas will also support its customers with the integration of cells into their applications, such as modules and packs. We have already secured two anchor customers, Tata Motors and JLR. They provide us with the scale to establish our global battery business. Agratas will be driven by our pursuit of green growth and technological progress.

Is Tata agratas planning a spinoff of its battery business?

Tata Agratas designs and makes batteries for the automobile and energy sectors (representational image) Tata Group is considering a potential spinoff of its battery business, according to people familiar with the matter, as the Indian conglomerate expands its foray in the country's renewable-energy and

electric-vehicle sectors.

Why is Tata Group partnering with agratas?

The two companies are maximising Tata Group's comprehensive #OneTata approach, with Tata Technologies also developing the digital business architectures to support the production of best-in-class battery solutions at Agratas' gigafactories in India and the UK.
