

Alinta energy solar feed in tariff qld

Overview

Does Alinta offer a solar feed-in tariff?

Alinta offers electricity plans for solar owners. Listed here are Alinta Energy's solar feed-in tariffs for households in NSW, QLD, SA and VIC. Select your State below to view solar feed-in tariffs for Alinta's plans. Solar feed-in tariffs are important, but to find the best deal you must consider usage rates and supply charges.

Who has the best solar feed-in tariff in Queensland?

Origin has the best solar feed-in tariff in Queensland at the time of publishing, with a generous 20 cents per kilowatt hour (kWh) on offer to eligible customers. The next best FiT rates come from AGL with 15c/kWh and EnergyAustralia with 12c/kWh.

Does Alinta Energy offer solar?

A competitive solar feed-in tariff. The great news is that all Alinta Energy plans offer solar to eligible customers. And, whilst we don't install solar panels, we instead focus on offering our customers the best combination of a competitive electricity offer and a competitive solar feed-in tariff.

Does south east Queensland have a minimum feed-in tariff?

There currently isn't a mandatory minimum feed-in tariff that electricity retailers have to abide by in South East Queensland (Energex network). Instead it's been left to each retailer to assign their own respective rates for exported solar power they buy from a solar system owner.

Which Australian energy company offers the highest single feed-in tariff?

EnergyAustralia offered the highest single feed-in tariff during the financial year and in the June quarter. The average feed-in tariff offered to residential customers increased over the course of 2022-23, from 5.5 c/kWh in the September quarter to 5.9 c/kWh in the June quarter.

What are solar feed-in tariffs?

Solar feed-in tariffs are the prices that the retailers pay customers for these exports. Retailers make these payments because other customers import the electricity that customers with solar PV systems export, which reduces the amount of electricity that retailers must buy on the wholesale energy market.
