Overview

Who is Arcadia solar?

As the national leader in community solar management, Arcadia's expertise empowers you to accelerate the solar movement with ease. Whether you're looking for savings or subscribers, we've got you covered. Renters and homeowners, connect to a local solar farm for no extra cost and get annual savings on your power bill.

Where are Arcadia's community solar projects located?

Arcadia's community solar projects are currently in just four states: Illinois, Massachusetts, New Jersey, and Colorado. By the end of 2020, Bhatraju hopes customers in nine states will have access to community solar. Arcadia is enabling the masses to connect to clean, renewable energy at lower costs.

Does Arcadia pay for solar panels?

Participating utilities commit to buy solar energy from Arcadia, which sells subscriptions to consumers and buys energy from solar farms. In some states consumers pay Arcadia, which then pays the utility on their behalf and also the farm. Others will see a community solar credit directly on their utility bill.

Considering Solar Panels?

Does Arcadia solar require a roof?

Solar that doesn't require a roof. When you sign up for community solar, there's no need to install panels — Arcadia digitally connects you to a local solar farm. Your utility stays the same, but you get a clean energy discount. Solar with guaranteed savings. Solar with guaranteed savings. Solar with guaranteed savings.

Does Arcadia offer solar credits?

As respective solar farms generate clean energy, Arcadia makes sure that enrolled customers automatically receive solar credits on their power bills, resulting in annual savings.

Why should I enroll in Arcadia solar?

Your enrollment helps keep the solar farm active, which means the grid is cleaner thanks to you! You get solar credits for the clean energy generated. Arcadia securely connects to your utility account so that we can calculate the maximum solar credits we can assign to you. Those savings are automatically applied to your bill.
