

# Are 380 photovoltaic panels good

## Overview

---

Jinko Solar lacks the brand recognition of brands like SunPower or Panasonic. But make no mistake: Jinko Solar is no ordinary solar company. Jinko is one of the largest global solar manufacturers with a reputation for high quality, accumulating impressive accolades over the years. The brand has consistently appeared on the.

A solar energy system built with Jinko Solar panels typically costs around \$2.60 per watt. That means a 6 kilowatt (kW) Jinko system will cost you.

Jinko's Eagle Series is the product line available to American homeowners. It includes two models: 1. Eagle G4 2. Eagle G6 .

Jinko Solar is an excellent solar manufacturer that has earned its place as one of the biggest in the business. Its high-quality panels perform well and come with great warranties. You're unlikely to have any problems with.

In the U.S., the Eagle G6 is Jinko Solar's most efficient panel, with a maximum efficiency rating of 22.53%. For reference, most panels in 2024 have module efficiencies of 19% to.
