.

What are the most common solar scams?

Here are some common scams to be aware of: 1. Fake Solar Companies Some scammers create fake solar companies, selling solar panel systems without any intention of installing them. They may ask for a big upfront payment and then vanish without doing any work. 2. Identity Theft Scams.

Are free solar panels a scam?

Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more. Or check out the Department of Treasury’s guidance on clean energy.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old “government is paying people to go solar” scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs.

Is home solar a scam?

Scams are a blight on the solar industry, but that doesn’t mean home solar

itself is a scam. Here are some tricks to avoiding solar scams, finding reputable installers, and enjoying the benefits of home solar. If you only listen to one sales pitch, it can be easy to get sucked into a scam.

Is a solar lease a scam?

Solar Lease or PPA Scams While leasing or using a Power Purchase Agreement (PPA) for solar panels isn't inherently a scam, these contracts can be challenging to break. Be cautious, as they may lock you into an unwanted monthly payment for a solar array you don't own.
