

Are phone calls on solar energy spam calls

Overview

Solar spam is pretty self-explanatory. The purpose of solar spam is to try to sell someone on a solar product or service in a pushy fashion. Most commonly done over the phone, these callers will continually reach out to you, often even after you made it clear that you do not want to become a customer. What are American Solar scam calls?

American Solar scam calls are fraudulent calls in which a scammer poses as American Solar or a similarly named company. Their goal is to gain personal information by making bogus offers for free or low-cost solar energy services.

Are solar energy scam calls dangerous?

Solar energy scam calls can be dangerous, and falling victim to one can bring about severe consequences like financial fraud and identity theft. The good news is that there are ways to spot a scam and get out of it unscathed. Since phone scams often use the same tactics, it stands to reason that they come with many of the same warning signs.

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more.

How do I report a Solar scam?

File a police report. Fraud, scams, and identity theft are serious crimes that should be reported to the police immediately. Contact local law enforcement and file a police report if you’ve lost personal information to an American solar scam call or other phone scam. How do these scams affect the solar industry?

.
