

Atem power solar blanket

Overview

What is a 200W portable solar panel blanket?

Atem Power is an Australian company that make outdoor gear like solar panels. It makes panels in different sizes and styles, where some are more portable than others. The product we are testing and reviewing is the 200W portable solar panel blanket that can charge not only 12V and 24V batteries, but power stations as well.

What is Atem power portable solar blanket?

This ATEM POWER portable solar blanket is designed with 8 stitched loops which are quite handy if you make up hooks when it gets windy. With premium PET films achieving light penetration rate of 95%, A-grade monocrystalline solar cells feature the fast charging speed possible with an energy conversion efficiency of up to 21%.

What is a TEM power solar blanket?

High Efficiency Solar Cell: ATEM POWER's solar blanket boasts A-grade monocrystalline solar cells that offer an impressive energy conversion efficiency of 23.5%. With PET films that allow up to 95% of light penetration, this foldable solar panel delivers optimal performance every time.

Can a 200W solar panel blanket charge a 24v battery?

The product we are testing and reviewing is the 200W portable solar panel blanket that can charge not only 12V and 24V batteries, but power stations as well. Atem Power 200W Solar Panel.

What is Atem power 200W solar panel?

Power up wherever, whenever with ATEM POWER 200W foldable solar panel!
Features Charge at Top Speed: A Grade monocrystalline solar cells boast an unrivaled 24% energy conversion efficiency for lightning-fast charging.

How does the Atem power solar blanket work?

This ATEM POWER solar blanket features auto-optimization function for immediate reconnection when sunlight returns after charging interruption, and comes with a lithium compatible MPPT controller which can adjust the voltage to get a boost of current during times of peak demand and helps you get 20% more energy than a PWM controller.
