

Austin energy solar credit

Overview

Austin Energy credits solar energy at the Value of Solar Rate, which is equal to \$0.097 per kWh generated. The solar interconnection and installation process with Austin Energy can take anywhere between four and six weeks. Does Austin Energy offer a value of solar credit?

Austin Energy customers with solar panels are automatically enrolled in the utility's Value of Solar rate. Customers receive a credit at this rate for the kilowatt-hours their system produces, and that money is deducted from their energy bill each month, Cranston said.

Does Austin Energy offer a solar rebate?

Austin Energy provides solar education to help you become an informed shopper and offers a rebate to help you with your purchase. Learn more about the Value of Solar (VoS) Rate You can earn a \$2,500 rebate by completing our solar education course and installing a qualifying solar photovoltaic (PV) system on your home.

How does Austin Energy help with solar installation?
