

Australian renewable energy agency wiki

Overview

The Australian Renewable Energy Agency (ARENA) is an independent agency of the Australian federal government, established in 2012 to manage Australia's renewable energy programs, with the objective of increasing supply and competitiveness of Australian renewable energy sources.

The Australian Renewable Energy Agency (ARENA) resulted from negotiations within the Australian parliament under the (June 2010–June 2013), with the intention of providing.

ARENA was established with a total funding allocation of \$3.2 billion out to 2020. In the the Labor government deferred \$370 million of the agency's funding.

• • • • • .

ARENA has listed its three investment priorities and addresses key areas that can help create a smooth transition to renewable energy:1. Integrating.

• .

in Australia is mainly based on , , , and generation. Over a third of electricity is generated from renewables, and is increasing, with a target to before 2040. Wind energy and have particularly grown since 2010. The growth has been stimulated by in order to limit the rate of

Home > About ARENA > Careers Careers We offer exciting and rewarding careers for talented individuals who wish to help improve Australia's future through renewable energy. We currently have exciting opportunities available: Assistant Director (Strategy), People

Board appointments for Australian Renewable Energy Agency

"ARENA's work is instrumental to advancing emerging renewable energy technologies and innovation in Australia's renewable energy sector," Minister Bowen said. "Justin and Elizabeth's re-appointments to the board ensures certainty as ARENA continues to play a critical role in Australia's energy transition and delivering a Future Made in Australia.

Decarbonising transport across Western Australia

The Australian Renewable Energy Agency (ARENA) has today announced just over \$21.8 million to three projects, unlocking an investment of \$48.4 million in accelerating the shift to electric vehicles in Western Australia through the Australian Government's Driving the Nation Program. ARENA is support

[Hydrogen Park Murray Valley Facility](#)

The project will deliver renewable hydrogen to start decarbonising the Albury-Wodonga gas network, which supplies energy to over 40,000 residential, commercial and industrial customers. It is ideally located to supply renewable hydrogen to any future hydrogen refuelling stations along the Hume Hi

ARENA at a Glance

Alex Campbell tells us why long duration energy storage is an important foundation to Australia's clean energy transition. About ARENA We support the global transition to net zero emissions by accelerating the pace of pre-commercial innovation, to the benefit of Australian consumers, businesses and workers.

Projects

ARENA supports projects that advance renewable energy technologies from early stage research in the lab, to later stage demonstration projects in the field. ARENA acknowledges the traditional custodians of Country across Australia and their continuing

What are renewable energy zones, and why do they matter?

Australia is rich in renewable energy resources, but converting the potential into productive renewable energy zones is a big job. A quick glance at a map of the National Electricity Market shows how existing transmission lines connect the historical electricity generating hotspots with the nation's large population centres.
