Italy - Household electricity prices.

The latest energy price in Italy is € 114.16 MWh, or € 0.11kWh This is -2% less than yesterday. The issue of electricity pricing in Italy, a subject of much discussion, finds itself at the forefront of public concern as the cost of energy generation and transmission continues its upward trajectory.

The residential electricity price in Italy is EUR 0.348 per kWh or USD 0.405. The electricity price for businesses is EUR 0.360 kWh or USD 0.419. These retail prices were collected in December 2024 and include the cost of power, distribution and transmission, and all taxes and fees. [Compare Italy](#).

Up until 2021, the average Italian household spent around €52 per month for electricity. But between 2022-2023, the average electricity bill increased exponentially, resulting in an average bill of €115 per month. In old buildings, you may receive electricity through old wiring. [Why is electricity.](#)

Electricity prices for Italian households with an annual consumption between 1,000 and 2,500 kilowatt-hours averaged 35.9 euro cents per kilowatt-hour in 2024. The average electricity price per kilowatt-hour in households with an annual consumption up to 5,000 kilowatt-hours was lower, below 31.

IT: Electricity Price: HC: 15000 kWh & Above: excl Taxes & Levies data was reported at 0.179 EUR/kWh in Dec 2024. This records a decrease from the previous number of 0.197 EUR/kWh for Jun 2024. IT: Electricity Price: HC: 15000 kWh & Above: excl Taxes & Levies data is updated semiannually, averaging.

The current value of the Electricity Spot Prices in Italy is 118.413 EUR/MWh.

The Electricity Spot Prices in Italy increased to 118.413 EUR/MWh on 6/1/2025, after it was 86.557 EUR/MWh on 5/1/2025. From 4/1/2004 to 6/1/2025, the average GDP in Italy was 84.38 EUR/MWh. The all-time high was reached. How much does electricity cost in Italy?

Meanwhile, the average price of electricity without taxes in Italy in that period was € 0.2451 per kilowatt hour, €4.44% less than in the previous period, in which the price of electricity without taxes was €0.2565kWh. In the last twelve months the price of electricity in Italy has fallen by 24.12%.

What was Italy - electricity prices - medium size households in December 2022?

Italy - Electricity prices: Medium size households was EUR0.31 Kilowatt-hour in December of 2022, according to the EUROSTAT. Trading Economics provides the current actual value, an historical data chart and related indicators for Italy - Electricity prices: Medium size households - last updated from the EUROSTAT on March of 2024.

Are Italy's electricity prices rising?

This is 7% more than yesterday. The issue of electricity pricing in Italy, a subject of much discussion, finds itself at the forefront of public concern as the cost of energy generation and transmission continues its upward trajectory, leading to a substantial increase in the monthly electricity bills of many households.

Will Italy's electricity prices rise in 2025?

A tall order—but one that promises economic growth and climate resilience. Electricity prices in Italy have been on a rollercoaster. After peaking in 2022, prices showed signs of stabilization in 2023. But forecasts indicate renewed upward pressure in 2025.

How is dynamic electricity pricing reshaping Italy?

Dynamic electricity pricing is reshaping how Italians consume electricity. These tariffs fluctuate by time of day, season, or market demand—encouraging smarter, more cost-effective energy use. Time-of-Use (TOU) tariffs have been the norm since 2010, but now, thanks to smart meters and EU regulation, real-time pricing (RTP) is on the rise.

How will EU electricity market design affect Italy?

EU Electricity Market Design: Member states, including Italy, must implement dynamic contract provisions and enhance consumer protections by 2025. These reforms aim to create a more efficient, transparent, and flexible electricity market that better reflects real-time renewable generation and regional grid conditions.
