

Back of solar panel

Overview

You need to have a renewable electricity generating system that meets the SEG eligibility requirements. You must have a meter capable of providing half-hourly export readings. This would typically be a smart meter. Speak to your energy supplier about getting a smart meter installed if you do not already have one.

You need to apply directly to a SEG tariff supplier to get paid. The OFGEM website lists the energy suppliers that provide SEG tariffs. Your SEGtariff.

Use the Energy Saving Trust calculator to estimate: 1. how much you could save from solar panels or other renewable electricity generating systems 2. how much you could earn selling unused energy back Although you.

Back of solar panel
