## Overview

---

What is Berkshire Hathaway Energy?

Berkshire Hathaway Energy (BHE) company generates, stores, and distributes electric energy. BHE operates in various parts of the world. For instance, BHE's distribution subsidiaries in Great Britain serve about 3.9 million end-users of electricity. One of Berkshire Hathaway's subsidiaries owns a railway transport company known as BNSF Railway.

Is Berkshire Hathaway a good investment?

Berkshire Hathaway's utility is at renewable energy power levels that surpass the national average. Climate investors still aren't happy with Warren Buffett.

Who is the new CEO of Berkshire Hathaway Energy?

Kevin Wills will be leaving his position as finance chief after supporting the transition. Adam Wright was named the new CEO. Lillo has been part of the Berkshire Hathaway Energy family of businesses for more than 25 years. He has expertise in enhancing financial controls, managing risk, and driving responsible value creation.

Who is BHE Renewables?

BHE Renewables is an industry leader in solar energy generation and continues to develop its portfolio with noncarbon resources. 2,307 megawatt capacity BHE Renewables operates several unregulated wind-powered generation projects. 345 megawatt capacity BHE Renewables owns 10 geothermal facilities in California's Imperial Valley.

What does BHE Renewables do?

BHE Renewables owns solar, wind, geothermal and hydroelectric projects that produce energy for both the wholesale market and for customers under long-term power agreements. By working to produce usable energy from noncarbon resources, these businesses offer energy alternatives and help to

reduce the environmental impacts of energy creation.

Where is BHE Renewables launching a microgrid-powered industrial site?

A groundbreaking event was held on more than 2,000 acres of land in Jackson County, West Virginia. BHE Renewables, a Berkshire Hathaway Energy business, is developing the property into a first-of-its-kind solar energy microgrid-powered industrial site.
