PA System Power Amplifiers

An amplifier is the workhorse of a PA system. It doesn't look very exciting, and usually has fewer knobs, lights or buttons than very basic effects or processors (although some - e.g. Crown's xps and xti ranges, and d& b's D6 and D12 - incorporate functions that have historically been the province of Crossovers and Controllers).

PA2000 power amplifier , PA System , Amperes , Malaysia

Dual speed cooling system PA2000 series has been serving the PA installations for more than a decade and trusted for its performance and reliability. 600W 100V line (PA2600) has been added to the series along with existing 120W (PA2120), 240W (PA2240), 360W (PA2360) and 480W(PA2480).
