

# **Best power systems engineering schools**

## Overview

---

**Key Takeaways** Some top US colleges for power electronics engineering include MIT, Stanford University, UC Berkeley, Caltech, and Georgia Tech. These schools have smart teachers who know a lot about power electronics. Places like the University of Michigan-Ann Arbor and Purdue University are also known for their good electrical engineering programs. Is UW a good school for Energy Systems Engineering?

UW is a large public university located in the town of Laramie. This university ranks 1st out of 7 schools for overall quality in the state of Wyoming. There were approximately 6 energy systems engineering students who graduated with this degree at UW in the most recent data year.

How popular is Energy Systems Engineering?

It is ranked #336 out of 395 major degree programs in terms of popularity. As such, your educational options may be more limited than if you were in a more popular field. For its 2024 ranking, College Factual looked at 8 schools in the United States to determine which ones were the best for energy systems engineering students pursuing a degree.

What are the best universities for engineering this year?

The best institutions for engineering this year continue to be Harvard University and Stanford University. Imperial College London moves into the top 10, taking the 10th spot. The universities of Oxford and Cambridge are the two other UK institutions in this group, which features six US universities and one from Singapore.

Where can I study electrical engineering online?

Arizona State University's Bachelor of Science in Engineering in electrical engineering with a concentration in electric power and energy systems online explores the structure and function of the large-scale power systems that support today's consumers and industrial operations.

Is Energy Systems Engineering a good major?

You'll be studying one of the lesser sought-after majors if you pursue a degree in energy systems engineering. It is ranked #336 out of 395 major degree programs in terms of popularity. As such, your educational options may be more limited than if you were in a more popular field.

Is IUPUI a good school for Energy Systems Engineering?

Located in the city of Indianapolis, IUPUI is a public university with a very large student population. This university ranks 7th out of 42 schools for overall quality in the state of Indiana. There were about 15 energy systems engineering students who graduated with this degree at IUPUI in the most recent year we have data available.
