At the time of updating (August 2024), Energy Australia has the best solar feed-in tariff in SA, whereby the maximum a customer can get is 12 cents per kilowatt hour (c/kWh). The next best solar feed-in tariff are AGL and Origin Energy who offers 10c per kWh. Should I only think about solar feed-in tariffs when choosing a provider?

.

What are the best solar deals in South Australia?

We have gathered the top three solar deals in South Australia that could lead you to attractive solar feed-in tariff options and significant savings on your energy costs. Origin Energy's Solar Boost plan is a shining example of solar plans in Australia. Offering a variable rate structure, this plan boasts an appealing 15 c/kWh feed-in tariff SA.

What are the best solar fit providers in South Australia?

Some of the top solar FiT providers in South Australia for 2024 include Origin Energy, AGL, and EnergyAustralia. It's important to compare feed-in tariff rates from various providers. While some might offer higher feed-in tariffs, others may provide better overall value through lower energy rates or additional benefits.

What are the best solar plans in Australia?

Origin Energy's Solar Boost plan is a shining example of solar plans in

Australia. Offering a variable rate structure, this plan boasts an appealing 15 c/kWh feed-in tariff SA. Coupled with the highly competitive rates, this plan also offers no-lock contracts, which means consumers can leave the plan anytime they want without any hidden fees.

Do SA electricity retailers have to pay for solar electricity?

This means SA electricity retailers don't have to pay anything for solar electricity exported to the grid, although they usually do offer a feed-in tariff. Here are some electricity plans with better than average feed-in tariffs, available as of August 2024. They are given in cents per kilowatt-hour (kWh):.

Can solar energy save money in South Australia?

Most solar households use about half of the energy generated by their PV panels. So, they can 'export' unused solar power into the grid and earn a feed-in tariff (FIT) payment. Solar owners in South Australia could receive hundreds of dollars annually in feed-in credits, saving even more money on their power bills.
