

Biden energy storage

Overview

What is the Biden energy storage initiative?

WASHINGTON, D.C.— The Biden Administration through the U.S. Department of Energy (DOE) today issued a Request for Information (RFI) seeking public input on the structure of a \$505 million long duration energy storage initiative to increase the availability of and deliver affordable, reliable clean electricity.

What are Biden's infrastructure projects?

The projects, supported by President Biden's Bipartisan Infrastructure Law, will deploy geothermal, pumped-storage hydropower, solar, and battery storage and will spur new economic opportunities in communities that have helped power the nation for generations.

What is the Biden infrastructure law?

Funded by President Biden's Bipartisan Infrastructure Law, these demonstration projects will increase community control of local power systems, mitigate risks associated with disruptions to the grid, and help communities develop reliable and affordable energy systems.

What is Biden's investing in America Agenda?

President Biden's Investing in America agenda is delivering the largest investment in grid infrastructure in history—more than \$30 billion from the Inflation Reduction Act and the Bipartisan Infrastructure Law.

What is the long duration energy storage for everyone?

The new Long Duration Energy Storage for Everyone, Everywhere Initiative, created by President Biden's Bipartisan Infrastructure Law, will advance energy storage systems toward widespread commercial deployment by lowering the costs and increasing the duration of energy storage resources.

Will Biden sign the infrastructure investment & Jobs Act?

US President Joe Biden is about to finally sign into law the trillion-dollar Infrastructure Investment and Jobs Act (IIJA), aka the Bipartisan Infrastructure Deal, which Congress passed on 6 November.
