

Big generac generator

5 Years warranty

Overview

Does Generac have a home standby generator?

Generac's 26kW home standby generator can start all of your home's large appliances, ensuring your home remains a sanctuary for you and your family. New alternator design that produces 230LRA or 55.2kVA starting power to meet today's and tomorrow's electrical needs.

How does a Generac generator work?

Each circuit is directly connected to a matched circuit on the home's main circuit breaker panel, providing electricity to that specific appliance or area of the home. Managed Whole House Coverage – You can get more coverage with less generator, up to whole-house coverage, by pairing a smaller generator with one of Generac's load-shedding options.

Does Generac offer a managed power solution?

Managed Whole House Coverage – You can get more coverage with less generator, up to whole-house coverage, by pairing a smaller generator with one of Generac's load-shedding options. This creates a managed power solution where non-essential circuits are shed when the generator approaches maximum capacity.

Can Generac size a generator?

Note: Generac customer support cannot size generators because we are not physically onsite to inspect the application, calculate load size, and are not familiar with your local applicable codes. Similarly, we cannot size wiring because we are not on-site to inspect the application, nor are we familiar with any applicable local codes.
