

Boston solar panels companies

Overview

Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies.

In addition to picking the solar installation company that's best for you, you'll also need to do some research to help determine which type of solar panels will work best for you.

Knowing the median household size in Boston, which is 1,849 square feet, and the average amount of energy each home uses in Massachusetts—596 kWh per household—can.

An important part of solar installation is determining what size system, or how many solar panels, will work best for your home. To best determine how many solar panels you'll need, be ready to give companies the following information:

1. How much available space is on your roof
2. The amount of energy your.
