Contact , Go Brite Solar

Our commitment to our customers and partners does not end when your solar panels begin producing cost-efficient, clean energy. Brite's experts are ready and trained to service and support your system when called upon. CALL US! (855) 691-2205 West South

About us

His research interests include conversion of solar into electrical energy using dye-sensitized solar cells and polymer solar cells. Other areas of his research interests are electroluminescent devices, luminescence properties of organic-inorganic composite materials and photocatalytic destruction of organic pollutants over semiconductor nanoparticles.

[Electrochromic - Dynamic Glass](#)

Widely applied solar shading methods cut building occupants off from their surroundings. Instead of keeping daylight and views out, electrochromic glass helps people embrace them, contributing to increased productivity in work environments and a greater sense of

BRITE SOLAR: SEMI-TRANSPARENT PHOTOVOLTAIC ...

Founded in 2010 in Greece, Brite Solar develops semi-transparent photovoltaic modules for greenhouse or open field crops. With an innovation patented in China, Europe and ...

Brite Solar is a nanomaterials company utilizing innovative materials and deposition techniques to deliver a new class of glass materials for building construction. These materials either save energy in the case of Dynamic and Smart Glass, or generate energy in the case of Solar Glass.

Brite Solar

Brite Solar is a nanomaterials company utilizing innovative materials and deposition techniques to deliver a new class of glass materials for building construction. Mankind's future may very well depend on how we manage food production, energy, water and land use.
