

Buy back solar energy electricity company

Overview

What is solar buyback?

Solar buyback makes investment in solar energy more attractive for homeowners and businesses. It refers to a program that allows solar panel owners to sell the excess electricity they generate back to the electric grid. Buyback programs are made possible through net metering and energy credits (below).

Do you need a solar buyback plan?

It's quite simple. If you have solar panels in your home, they already generate clean energy from the sun. Sometimes your panels may produce more energy than you need. With a solar buyback plan, you can sell that surplus energy back to the electricity company. There are many benefits to solar buyback plans.

Can you sell solar power back to your energy provider?

You can make bank selling your spare solar power back to your energy provider, but there's a lot to know about the different buyback plans out there. Read on to compare Texas solar buyback plans and get answers to common questions, like: How does solar buyback work?

.

How do solar buyback electricity plans work?
