

Camfil farr power systems ab borås

Overview

Thanks to more than 50 years of experience in air intake filter and acoustical solutions for turbomachinery applications, we have over 2,000 customer references worldwide for power generation, oil and gas and industrial air compressors. We engineer and manufacture our solutions to the highest standards and equip them.

We offer complete air inlet filtration and acoustical systems (inlet silencers, noise enclosures), including a variety of options for anti-icing and cooling. Site services include air analyses, site surveys, upgrades and refurbishments. Our teams in Sweden, Germany.

The main drivers for the operation of turbomachinery equipment will vary from customer to customer and from one location to another.

Who is Camfil Farr power?

For over 40 years, Camfil Farr Power systems has been developing and supplying air intake systems that protect turbomachinery and help them maintain optimal efficiency. We also provide acoustic and exhaust systems, including dampers and diverters, that reduce noise and ensure high-quality day-to-day operation.

Who is Camfil power systems?

Camfil Power Systems specializes in air inlet and acoustical systems for turbomachinery, including gas turbines, generators, industrial air compressors and diesel engines.

Why should you choose Camfil power systems?

In other words, we help you stay in control. Camfil - Intelligent air solutions for maximum predictability and minimum complexity. CLEAN AIR SOLUTIONS FOR TURBOMACHINERY Camfil Power Systems specializes in air inlet and acoustical systems for turbomachinery, including gas turbines, generators, industrial air compressors and diesel engines.

What does Camfil Farr do?

Camfil Farr conducts its own product development and R&D, and has worldwide local representation. Our overall quality goal is to develop, produce and market top-quality products and services that always exceed our customer's expectations. We see our activities and products as an expression of our quality.

Where does Camfil work?

Our teams in Sweden, Germany, Canada, India and China also work closely with Camfil's subsidiaries, agents and distributors to educate our customers about filtration with a view to improving and retrofitting their existing systems or defining the optimum solution for new equipment investments.

Who is Camfil?

Thanks to more than 50 years of experience in air intake filter and acoustical solutions for turbomachinery applications, Camfil has over 2,000 customer references worldwide for power generation, oil and gas and industrial air compressors.
