

Can you clean solar panels with a pressure washer

Overview

Can you use a pressure washer to clean solar panels?

It's best to avoid using a pressure washer, scourers or harsh cleaning chemicals when it comes to cleaning solar panels, as they may damage the system or surface of your panels. And if you're not sure about getting up on the roof, you can always get a professional solar panel cleaner to come clean your panels for you.

Should you wash solar panels with high-pressure water?

I've learned it's best to never use high-pressure water as it might cause damage, which is why power washing should be off the table. Instead, treating the solar panels with the same care as washing a car ensures they remain in top condition. And remember, if the task seems too daunting, professional cleaning services are always a safe bet.

Are solar panels safe to clean?

Over time dirt and debris can accumulate on solar panels, reducing their performance and efficiency. We will evaluate alternative cleaning methods, and provide expert tips to help ensure a safe and effective cleaning process that maximizes solar output without harming costly panel investments. Is pressure washing safe for solar panels?

.

How do you clean solar panels?

Then, use a squeegee or soft cloth to dry the panels, preventing water spots. I've learned it's best to never use high-pressure water as it might cause damage, which is why power washing should be off the table. Instead, treating the solar panels with the same care as washing a car ensures they remain in top condition.

Should I Turn Off my solar panels before cleaning them?

Yes, you should turn off your solar panels, and any adjoining electrical equipment, before attempting to clean them. While solar panels are built to withstand the harsh Aussie climate, if you're hosing your panels down some water may get on the underside of the panel, which could potentially cause issues and damage if you're not careful.

How do I know if my solar panels need a cleaning?

A drop in energy output can be an indication that your solar panels could use a cleaning. The mySunPower® app gives you complete control over your SunPower solar power system, allowing you to track and monitor your energy production in real-time. With SunPower, you'll always know exactly how well your panels are performing.
