

Centrotherm photovoltaic

Overview

The company was founded in 1976 as centrotherm Elektrische Anlagen GmbH + Co. KG. In the 1990s the company broke into the photovoltaic business and since 2000 has been an important global player in this industry sector. As part of company restructuring in the centrotherm Group, the name of the photovoltaic business unit was changed to centrotherm photovoltaics solutions GmbH & Co. KG in 2004 and in 2006 became centrotherm photovoltaics AG. The company has.

What is centrotherm PECVD?

With more than 1250 units installed worldwide, the centrotherm PECVD platform c.PLASMA is the leading technology and industry standard for solar cell passivation and anti-reflective coating. The system uniquely combines high throughput, outstanding process performance and lowest total cost of ownership.

Who is centrotherm international AG?

centrotherm international AG is a supplier of process technology and equipment for the photovoltaics, semiconductor and microelectronics industries. Its company headquarters are in Blaubeuren, Germany (Baden-Württemberg).

What happened to centrotherm photovoltaics?

As part of company restructuring in the centrotherm Group, the name of the photovoltaic business unit was changed to centrotherm photovoltaics solutions GmbH & Co. KG in 2004 and in 2006 became centrotherm photovoltaics AG.

What does centrotherm do?

centrotherm international AG develops, manufactures and markets thermal key equipment and process technology for the production of solar cells, power semiconductor devices, logic and memory devices as well as LED and sensor technologies and also provides related services to customers.

What is centrotherm direct plasma process?

The centrotherm direct plasma process provides superior dielectric AlO_x/SiN_x stacks with excellent passivation properties and is said to be the fastest and easiest way to start PERC solar cell manufacturing in a cost effective way.

Is centrotherm a good company?

centrotherm with satisfactory business performance in the first half of 2024; confirmation of full-year forecast centrotherm is one of the leading technology providers for innovative thermal processes for the semiconductor and photovoltaics industries. You are innovative, motivated and ready to take responsibility?
