

Champion solar power cannon

Overview

This weapon is a reskin version of the Solar Power Cannon, only replaced with "Champion Colors." This weapon has a white and grey body with 3 red crystal on the top, a silver grip, a grey stock with 2 dark red stripes.

This weapon shoots a red, circular particle with bullet travel time that has a medium sized explosion on impact. It has area damage, so shooting on the ground in close range near the player makes fighting with this weapon easier.

This weapon has insanely high power, it has a relatively normal firing rate, a medium-capacity, and medium mobility. This weapon is 1-2 rockets kill for Max-Armored opponents.

Bring a sniper rifle to kill enemies at long range to weaken them. Also bring a rapid-firing weapon such as the Cyborg Hands, along with a moderate damage weapon (preferably Portable Death Moon) to deal with bullet spam.

It is a black and red solar cannon that shoots red solar bombs. It has a slow fire rate, high damage, large capacity, and average mobility. It has single shots and area damage attributes. The reload time is pretty slow.

Solar cannon

The solar cannon is a weapon in the Fallout 4 Creation Club content "Solar Cannon." The solar cannon was originally developed by Poseidon Energy before the Great War as a sister project to the Tesla cannon. It was intended as a crowd control device but was found to be too unstable and radioactive. After the Great War, it was briefly used by the Enclave. However, they eventually ...
