Overview

Who is Chint solar?

Chint Solar is a leading European player active in project development, financing, realization and operation of solar parks. We are fully committed to achieving a successful energy transition in Europe, away from fossil fuels to a sustainable future with clean energy. Our mission is to energize people.

Does Chint still make solar panels?

CHINT is a big company — as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

Where is Chint solar working?

Our European project development activities started in 2016. We are now working on the energy transition in France, Germany, Hungary, Italy, Portugal, Spain, the Netherlands and the United Kingdom. Chint Solar has already completed more than 800 MWp of solar parks in Europe, which equals providing sustainable energy to more than 250,000 households.

Where are Chint solar panels made?

With factories located in both Asia and Europe, the Chint Group is at the forefront of developing more efficient photovoltaic panels while maintaining the highest quality. This quality is backed by internationally recognised seals such as, Bloomberg Tier 1, PEVL and DNV and Photon Magazine No.1.
