

Clarence stone systemic power in community decision making

Overview

What influence do urban scholars have on community decision-making?

In their continued considerations of political inequality, urban scholars are especially concerned with less visible influences surrounding community decision making, and have employed such concepts as potential power, nondecision making, and anticipated reactions. However, these concepts leave some patterns of influence unexplained.

Who is Clarence Stone?

Clarence Stone is a Research Professor of Political Science and Public Policy. He has been an emeritus member of the faculty of the University of Maryland, College Park. Stone was a Visiting Fulbright professor at the University of Southern Denmark in 2001-2002.

Are all stages of decision 'magnet for the poor' lukewarm or short-lived?

Since not all stages of decision "magnet for the poor," official support is likely making are equally salient to the public, systemic to be lukewarm or short-lived, and resistance may power should be most evident under conditions of go unchecked (Stone, 1976).

What is a systemic power argument?

Pat- and related behavior patterns of public officials, the systemic power argument lends itself to the formulation of propositions and helps account for some important aspects of community decision making.

Would systemic power fend their power advantage?

It would miss fend their power advantage. Systemic power, as systemic power and overlook the advantages that such, involves no overt attempt to influence the some groups enjoy in the form of favorable context of decision making. It lies in the impera- predispositions of public officials.

Do systemic features affect the power positions of competing groups?

However, systemic features do affect the power positions of competing groups with a stake in community decision making. By employing the notion of opportunity costs, we can see that systemic power does not mean that power is exercised by the system, but rather that the system affects power relationships in ways that are situational and indirect.
