

# Classification of LONGi photovoltaic panels

## Overview

---

LONGi Solar, a Tier 1 solar panel brand, offers state-of-the-art solar technology features in their solar modules, including PERC technology. PERC cells allow solar panels to have a high cell efficiency. PERC, or “passivated emitter and rear contact” panels, have an extra layer of glass on the backsheet of the solar cells.

LONGi offers four main module series, the Hi-MO 7, Hi-MO X6, Hi-MO 5, and Hi-MO 5m -- but only the Hi-MO 5m Series offers panels for residential use. Bifacial solar panels are not practical for.

While you can find pricing to buy panels from a supplier, pinpointing the exact cost of solar panel installations is challenging. Many factors go into the total cost, from installation costs to shipping costs. But as a ballpark estimate.

LONGi Solar offers a 12-year limited product warranty for workmanship and defects and a 25-year performance warranty. The product.

Because LONGi Solar panels use half-cut cells, they perform well in most conditions. Half-cut cell technology allows the panels to essentially operate as two separate panels on the top and.
