48.0V or 51.2V

## Overview

---

What is the tsx30 & how does it work?

The TSX30 is an annual list of the top-performing stocks on Canada's main stock exchange over a three-year period, based on dividend-adjusted share price performance. The 2024 edition of the list, released Tuesday, is dominated by three sectors — oil and gas, industrial products and services, and mining.

Who won tsx30 this year?

Among this year's TSX30 winners are Athabasca Oil Corp. — which nabbed third place with a 429 per cent three-year share price appreciation — as well as NuVista Energy Ltd., MEG Energy Corp. and several others. "Specific (oil and gas) companies . are really driving investor returns by providing reliable energy supply," he said.

What is the TSX Venture?

Updated every year, the TSX Venture ranks the 50 best companies on the exchange across commodities like diversified industries, energy and energy services, mining, technology and—of course—clean energy and life sciences.
