Plot keywords: astronomy science moon planets solar system sun earth jupiter mars mercury neptune saturn uranus venus Volcanoes tower 80,000 feet above a barren surface.

Are You a traveler on a cosmic journey?

#39 “We are travellers on a cosmic journey, stardust, swirling and dancing in the eddies and whirlpools of infinity. Life is eternal. We have stopped for a moment to encounter each other, to meet, to love, to share. This is a precious moment. It is a little parenthesis in eternity.” - Paulo Coelho.

What can you do in the outer reaches of our Solar System?

Take a voyage to the outer reaches of our solar system in search of worlds that might support life. See volcanoes tower 80,000 feet above a barren surface, experience monstrous hurricanes, and explore multicolored rings suspended in air. Enjoy the wonders of the planets and their moons as you travel faster than the speed of light!
