

Csee j of power and energy systems

Overview

What is the CSEE Journal of power and energy systems (JPES)?

The CSEE Journal of Power and Energy Systems (JPES) is dedicated to reporting the new development of academic research in the fields of power and energy systems. The journal provides an international platform for authors to maximize the reach and influence of their contributions.

What does CSEE stand for?

CSEE Journal of Power and Energy Systems [ISO4] CSEE J. Power Energy Syst. [] CSEE Journal of Power and Energy Systems [] ISO4 [] CSEE J. Power Energy Syst. []

What does JPES stand for?

The CSEE Journal of Power and Energy Systems (JPES) is an international quarterly journal published by the Chinese Society for Electrical Engineering (CSEE) in collaboration with CEPRI (China Electric Power Research Institute) and IEEE (The Institute of Electrical and Electronics Engineers) Inc.

How much does CSEE cost?

Price and Publication Information: Individual copies: \$20.00 (first copy only). Subscription prices are available upon request. (Note: Postage and handling charge not included.) Copyright: CSEE owns the copyrights to all copyrightable material in its technical publications and to the individual contributions contained therein.

What is the relationship between energy use and end-use?

The energy use of various sectors of energy resources, technologies and end-use are closely related. Hydrogen will have an increased penetration in the private mobility sector, but the locally generated hydrogen is mainly from steam methane reforming technology.
