

# Daily planet position

## Overview

---

What is sidereal planetary position in Vedic astrology?

It lists current position of all planets according to Vedic Astrology which uses sidereal zodiac. Sidereal Planetary positions are also known as Nirayana Planetary Positions.

What is displayed time in astrology chart?

Displayed time is Local Clock time for selected location. Time is adjusted for DST (if applicable). Planet positions are Sidereal/Nirayana according to Vedic Astrology. Rahu and Ketu positions used in chart are Mean positions, which can be changed to True position.

Why do planets have a slider control?

The reason is that the app has a slider control which changes the orbits of the planets from a diagrammatical view (i.e. all the planets in nice neat, equally separated, circular orbits) to a real view (i.e. all the planets in elliptical orbits with all the inner planets squashed in next to the Sun and the outer planets being widely spaced).
