Our Price: \$995.00 Who makes discover Energy Systems lithium batteries?

Discover Energy Systems' industry-leading Lithium Solutions (AES, AES RACKMOUNT, PROFESSIONAL and BLUE) are purposefully built by Discover Energy Systems' North American engineering and manufacturing group. The batteries are also independently certified to the highest safety, performance, and reliability standards.

What is discover battery?

Discover Battery's high value lead-acid and lithium power solutions are engineered and purpose-built with award-winning patented technology and industry-leading power electronics.

Are discover lithium batteries good for hybrid inverters?

Discover provides excellent sales and technical support for its products and is a valuable resource for all types of batteries in the battery industry. Discover lithium batteries are the best lithium batteries we tested to work with our hybrid inverters. Great quality! We are very satisfied with the MIXTECH batteries for our automotive fleet.

Are discover batteries any good?

Discover batteries perform better than any other battery I have used in 47 years as a yacht management company in Newport Beach, California. We have maintained, serviced and replaced thousands of batteries, and Discover has been the easiest to work with.

What is a LiFePo 4 lithium battery?

Discover® Advanced Energy System (AES) LiFePO 4 Lithium batteries offer bankable performance and the lowest cost of energy storage per kWh. AES LiFePO 4 Lithium batteries are manufactured with the highest-grade cells and feature a proprietary high-current BMS that delivers superior peak power and

lightning-fast 1C charge and discharge rates.

Is discover AES a good battery?

Discover AES is easy to install and has the best power electronics integration of any battery I've seen. When we evaluated off-grid lithium batteries that could represent our brand and reputation, Discover AES was the obvious choice.
