

# Does IKEA have a solar power plant

## Overview

---

IKEA recently purchased two solar power farms to supplement the some 700,000 solar panels fixed to their factories and retail rooftops. Does IKEA offer solar energy?

Following a rollout of the renewable energy offer in Sweden, IKEA is hoping to expand the service, as well as its solar panel products, to all IKEA markets worldwide. When sourcing energy, IKEA is aiming to offer electricity from solar and wind sites which are five years old or less, in order to spur the construction of new clean energy sites.

Does IKEA offer 100% renewable electricity?

Today, IKEA announces a program with the intention of securing 100% renewable electricity at direct suppliers – especially in markets where it's difficult to access renewable electricity now. Almost two-thirds of the IKEA climate footprint is directly connected to the supply chain, including production at suppliers.

Does IKEA believe the future is renewable?

“We believe that the future is renewable.” Over the last decade, Ikea's parent company has invested around \$2.7 billion in renewable energy.

Will SunPower solar panels be available at IKEA stores?

CORRECTION, Thursday, May 19, 11:27 a.m: A previous version of this article incorrectly stated that SunPower's solar panels would be available for purchase at California IKEA stores in the fall. It has not yet been confirmed that the solar panels will be at IKEA stores; as of now, the partnership's details have not been announced.

Does IKEA sell solar panels in the UK?

Ikea is now offering solar panels and home batteries to its customers in the UK. The Scandinavian furniture chain is partnering with solar firm Solarcentury

for the venture, with prices for solar battery storage starting at £3,000 (about \$3,970 USD).

Is IKEA partnering with SunPower?

Keep reading for everything we know so far. In May 2022, IKEA U.S. partnered with SunPower, a company that makes residential solar panels, to launch a new program called Home Solar with IKEA, as per a press release shared with Green Matters.
