

Does farmers insurance cover solar panels

Overview

Farmers Insurance, one of the leading insurance providers in the United States, offers homeowners insurance that may provide coverage for solar panels. Do I need insurance for a solar panel system?

In most cases, there is no need to get additional insurance to cover your solar panel system. However, since solar is worth thousands or even tens of thousands of dollars and can add around \$10,000 to \$30,000 of value to your home, we might recommend raising your coverage limit to cover the cost of your home with the solar panel system.

What is solar panel insurance?

Solar panel insurance is a type of coverage that protects homeowners who have installed solar panels on their property. This coverage is typically included in most homeowners insurance policies, which means that no separate solar panel insurance is needed.

How much does insurance cover a solar panel system?

Your insurance policy's coverage limit is the maximum amount it will pay for a covered loss. In 2021, the cost of an average 6-kilowatt solar panel system was \$16,860 before tax incentives and rebates; many homeowners will install systems sized at 10 kW or greater, meaning that solar is an investment worth tens of thousands of dollars.

Does insurance cover rooftop solar?

While rooftop solar is typically covered in a standard policy, your insurer may or may not cover other types of installations, such as ground-mounted solar panels and solar panel carports. Whether or not these separate systems are covered depends on your insurer's policy.
