

Domestic energy storage supplier quotation in Chile 2026

Overview

When will large-scale energy storage projects go online in Chile?

The Chilean authorities plan to hold the first procurement exercise for large-scale storage projects in 2024, with the first systems expected to go online in 2026. The president of Chile, Gabriel Boric, has said that the government is now preparing a bill to establish a tender mechanism for large-scale energy storage facilities.

Is Chile preparing a tender mechanism for large-scale energy storage facilities?

The president of Chile, Gabriel Boric, has said that the government is now preparing a bill to establish a tender mechanism for large-scale energy storage facilities. The measure aims to maximize the use of renewable energy generated in the northern part of the country.

How much energy will Chile have by 2026?

According to estimates of the national electric system of Chile (SEN) cited by Americas Market Intelligence, the country will have 13.2 GWh/ 2 GW (6–8-hour duration) of operating energy storage by 2026. The northern regions of Antofagasta and Atacama account for nearly 5GW of the BESS pipeline.

How can Chile keep up with the changing energy demand landscape?

Chile is exploring a variety of solutions to keep abreast of the changing energy demand landscape ranging from BESS to innovative projects using CO₂. In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations.

Why does Chile need more energy storage?

Chile is currently a hotbed of grid-scale energy storage activity, with huge levels of solar curtailment, massive energy price volatility and regulatory reforms helping to drive the need for more storage. See all recent coverage of

the country here.

Will CATL supply the Oasis de Atacama project in Chile?

CATL supply will cover phase four of the Oasis de Atacama project in Chile which is expected to be operational by 2026. Image: Greenergy Spanish independent power producer (IPP) Greenergy has secured a 1.25GWh energy storage supply agreement with CATL for its Oasis de Atacama project in Chile.

Domestic energy storage supplier quotation in Chile 2026

Grenergy launches solar and battery auction in Chile

Grenergy launches a new reverse auction for solar energy and storage in Chile. Grenergy is tendering 1.7 TWh of renewable energy in Chile, focusing on nighttime storage ...

Critical minerals and green transition, key to Chile's continued ...

The economic growth outlook for 2025 is similar, largely driven by domestic demand and a surge in investment. Investment remains crucial for Chile's economy, which ...

[Domestic energy storage box quotation](#)

This study shows that battery electricity storage systems offer enormous deployment and cost-reduction potential. By 2030, total installed costs could fall between 50% and 60% (and battery ...

Grenergy launches a reverse energy auction in Chile

Grenergy has launched a reverse auction in Chile for the sale of 1.7 TWh/year of energy from the company's various photovoltaic and battery storage plants in the country. ...

Chile seeks multi-gigawatts of large-scale storage for ...

Gabriel Boric (front row centre), president of Chile since 2022. Image: Biblioteca del Congreso Nacional de Chile. The government of Chile will launch a bill this year to procure large-scale energy storage systems for ...

CIP starts construction on 1.1GWh standalone BESS in Chile

In related standalone BESS Chilean news, DNV provided support to Atlas Renewable Energy's 800MWh project in Antofagasta. Image: Atlas Renewable Energy ...
