

Dte solar energy incentives

Overview

Does DTE Energy install solar?

While DTE Energy does not install solar or other renewable energy generation systems for our customers, we have an important role to play in connecting your private generation system to the grid. The Rider 18 Distributed Generation Program is available to DTE customers with qualified renewable energy on-site generation.

How will DTE's \$70 million solar deal help low-income customers?

An additional \$70 million will support DTE's low-income energy efficiency programs. Under the new deal, customers interested in installing solar panels and selling excess energy back to the grid will have more time.

What will DTE do if the MPSC approves a solar plan?

If the MPSC approves DTE Energy's plan, the company will significantly increase its generation capacity from renewables, ending 2022 with enough solar and wind energy capacity to power 900,000 homes. The new solar assets will source clean energy purchases from corporate, municipal and industrial customers participating in the company's MIGreenPower program.

Who is DTE Energy?

DTE Energy is largest investor of solar power in Michigan. Learn how we are putting more of this zero-emission energy technology to work for you.

Does DTE Energy have a 'migreenpower' plan?

DTE Energy has updated its MigreenPower voluntary renewables plan with the Michigan Public Service Commission (MPSC) to bring online an additional 420 megawatts of solar energy by 2022, enough clean energy to power 120,000 homes. DTE Energy announced this on September 1, 2020.

What is DTE's migreenpower program?

Take a video tour of Lapeer Solar Park. For customers who want to do more to protect the environment, DTE's MIGreenPower program enables you to attribute a percentage of your energy use to our wind and solar projects. Enrolling accelerates the development of clean energy in Michigan and a cleaner environment for all Michiganders.
