Overview

How much do solar panels cost in Durham NC?

How much do solar panels cost in Durham, NC?

As of April 2024, the average solar panel cost in Durham, NC is \$2.71/W. Given a solar panel system size of 5 kilowatts (kW), an average solar installation in Durham, NC ranges in cost from \$11,537 to \$15,609, with the average gross price for solar in Durham, NC coming in at \$13,573.

How do I find a reputable solar installer in Durham?

Make sure your solar installer provides a consultative, professional solar experience, and if you're also purchasing a solar battery system, they have proven experience with those products too. By doing the legwork for you, EnergySage makes it easy to find reputable solar installation companies in Durham, NC.

Where can I get a solar lease in Durham?

SunPower and other similar leases are offered by a number of local solar companies in Durham and my pick of these are: Renu Energy Solutions provides high-quality solar energy installations, as well as proven energy-saving products and services like energy storage and system monitoring.

Are solar loans a good idea in Durham?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use incentives (tax credits etc) available in Durham, rather than a leasing company retaining them.

What solar incentives are available in Durham?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery

storage. Some states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Durham:.
