

Eagle point solar panel company

Overview

What is Eagle Point Solar?

Eagle Point Solar, founded in 2010, is dedicated to providing renewable solar energy solutions throughout Iowa, Illinois, and Wisconsin. They have installed systems of all sizes including residential homes, small businesses, large commercial facilities, agricultural operations, local government, academic institutions, and local utilities.

Does Eagle Point solar offer a warranty?

Eagle Point Solar attaches a five-year-only workmanship warranty to each completed solar project. While these warranty terms may provide plenty of coverage for the average solar panel system, most solar providers offer terms for twice that amount of time.

How many NABCEP certified solar technicians does Eagle Point solar have?

Eagle Point Solar currently employs more than a dozen NABCEP-certified solar technicians. The North American Board of Certified Energy Practitioners is an industry-recognized organization that produces the top certification programs in the country.
