Build the Solar System

This mechanical model of the solar system is not only a work of art, but a functioning model of the solar system as it is known in the time that we are living. When complete, this beautiful model stands 37cm high with a span of 60cm at it widest point - a truly impressive museum-quality statement piece to display and use in your own home.

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.
