

Eaton power system experience center

18650^{3.7V}
Li-ion
RECHARGEABLE BATTERY

2000mAh

Overview

What can you expect at the Eaton Experience Center in Pittsburgh?

At the Eaton Experience Center in Pittsburgh, you can see the latest advances in electrical power quality, energy management and safety. In this controlled environment, visitors observe product testing and performance, participate in live demonstrations and training courses and learn about power management technologies from Eaton experts.

What is Eaton's experience center?

Our goal is to help take the mystery out of electrical power systems spanning from utility substation equipment to the receptacle in your home — making them come to life. Eaton's Experience Center located in Raleigh, North Carolina, is a state-of-the-art facility designed to demonstrate Eaton's industry-leading power quality solutions.

Where can I learn more about Eaton power management technologies?

To learn more about Eaton's power management technologies, visit [Eaton.com/Brightlayer](https://www.eaton.com/Brightlayer). For information on Eaton's full range of innovative power management technologies, visit [Eaton.com](https://www.eaton.com).

What are the hours of operation for Eaton power management?

Eaton's hours of operation for power management are Monday - Friday: 8:00 a.m. to 6:00 p.m. Eastern time. Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. Backup power, UPS, surge & IT power distribution Backup Power (UPS) 9PX.

What is the Eaton Center?

The dream of high-tech business accommodations in a hometown environment is a reality at The Eaton Center. Our tenants enjoy a broad scope of amenities, and the variety of available services makes The Eaton Center a

convenient place to work and do business. First class office space in a highly professional atmosphere with plenty of room to expand.
