

Ec power systems oregon

Overview

Who is EC Electric?

EC Electric has been designing and installing networks that power life since 1946 in airports, factories, schools, hospitals, office buildings, power plants, and data centers. We are a trusted partner of choice, providing comprehensive power solutions through superior parts, people, and expertise.

What does Power Systems West do?

Power Systems West is a company that sells and services generators, engines and parts across 10 Western States. Since 1955, we have built a multistate team, regional warehouse service centers, extensive support resources, and a network of over 500 dealers to provide you with the most efficient and cost-effective solutions possible.

Why should you choose EC Electric?

Our devices are charged, our homes and offices are warm and bright, our hospitals are running, traffic is flowing, commerce is humming, and the coffee is on. EC Electric has been designing and installing networks that power life since 1946 in airports, factories, schools, hospitals, office buildings, power plants, and data centers.

Why should you choose power systems West?

Our engineers and sales team are here to help you determine the best solution. Our factory-trained technicians are available around the clock, around the year to ensure that your backup power is always ready for you. Power Systems West is a regional leader in providing reliable backup power.

What is EC power life?

EC Powers Life | Our lives function on a power grid. A complex network of wires, junctions, transformers, and switches transport electrons powering what we do daily. Our devices are charged, our homes and offices are warm

and bright, our hospitals are running, traffic is flowing, commerce is humming, and the coffee is on.

Who is EC's VP of operations?

Ron was Vice President of Operations for EC and had been with us since 2017. Many of the operational programs we practice as a company today were championed by Ron. His pursuit of excellence was only outshined by his spirit, his smile, and his allegiance to the Nebraska Cornhuskers.

Contact Us

For sales or service on generators, industrial engines or parts from Power Systems West, contact us at one of our regional service centers, listed below.

Energy Center

The XRGI® with a battery system safeguards the supply of energy in the event of a power outage affecting the public power grid (island mode, back-up supply). At other times, the use of electricity is optimised by peak shaving, the operation of E-charging stations with local load management and an increase in the internal current consumption.

Critical Power Experts since 1992 , EC Power Products & Services
