

Expected ROI of residential ESS project in Ethiopia 2026

Overview

When did the Ethiopia rural socioeconomic Survey (ESS) start?

The first wave was implemented in 2011–12, the second wave in 2013–14, and the third wave in 2015–16. The first wave (originally referred to as the Ethiopia Rural Socioeconomic Survey [ERSS], but since retitled ESS1), covered only rural and small-town areas¹. The second and the third waves, ESS2 and ESS3, added samples from large town areas².

What is the Ethiopia socioeconomic survey?

The Ethiopia Socioeconomic Survey (ESS) is a collaborative project of the Central Statistics Agency, Ethiopia (CSA) and the World Bank. The project is generously supported by the Bill and Melinda Gates Foundation through the Living Standards Measurement Study–Integrated Surveys on Agriculture (LSMS-ISA) project.

What are ESS objectives?

ESS objectives include development of an innovative model for collecting agricultural data, interinstitutional collaboration, and comprehensive analysis of welfare indicators and socioeconomic characteristics.

Why is the community questionnaire not used in Ethiopia?

The three agriculture questionnaires—post-plan- Because the community questionnaire does not collect sociological information, the data cannot be used to represent communities in Ethiopia. It simply collects information that is common to the EA households selected for inclusion in the survey.

Where can I find a comprehensive overview of agricultural innovations adopted in Ethiopia?

A comprehensive overview of agricultural innovations adopted in Ethiopia that rely on the ESS is available in SPIA (2020).¹³ 13 Standing Panel on Impact Assessment (SPIA), 2020. Shining a Brighter Light: Comprehensive

Evidence on Adoption and Diffusion of CGIAR-related Innovations in Ethiopia.
Rome: SPIA.

What percentage of households own a house in Addis Ababa?

Except for Addis Ababa, where only 31 percent of households own their house, variation in housing ownership is minimal between regions. However, the data highlight considerable differences between rural and urban areas. For example, 50 percent of urban households rent their houses compared with only 3 percent in rural areas.
