

F150 lightning powering house

F150 lightning powering house

Lightning to Power House?? , Page 3 , Ford Lightning Forum For ...

I finally spoke to an electrician. As written, the truck can produce 9kW or 9600watts. He divided 9600/240 to get 40amps. As he explained it, the truck can power a 40 amp circuit (or the same thereof) and no more. My present house has a 200amp service so the truck could power 20% of the house -
