About this item Power Bank with 5V 3.1A 2 USB Output ports,which can fast charge 2 devices at the same time.You can share with your companions to get rid of worries about the remaining battery power of your phone. The USB C and Micro USB input ports can

Power Bank Solar Charger Instructions, Tips, and Troubleshooting

Aptly named, a power bank solar charger is used to charge devices with solar power. Technically, however, the power bank charges its own battery capacity and then discharges the energy to your phone. With this, these devices should actually be called "solar chargers and dischargers."
