

# Fengyang Lierzhuang Power Plant

## Overview

---

The Fengning Pumped Storage Power Station (: 丰宁抽水蓄能电站) is a power station about 145 km (90 mi) northwest of in of , China. Construction on the power station began in June 2013 and the first generator was commissioned in 2019, the last in 2021. Project cost was US\$1.87 billion. On 1 April 2014 was awarded the main contract to build the po.

Is China's Fengning power station the world's largest hydro power plant?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. China's Fengning Station: World's Largest Pumped Hydro Power Plant Sets New Global Benchmark.

What is Fengning pumped storage power plant?

The Fengning pumped storage hydroelectric facility will be connected with the Beijing-Tianjin-North Hebei grid. The 3.6GW Fengning pumped storage power station under construction in the Hebei Province of China will be the world's biggest pumped-storage hydroelectric power plant.

How big is China's Fengning pumped storage power station?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. Located in Hebei province, this cutting-edge facility has a total installed capacity of 3.6 GW and is operated by the State Grid Corporation of China (SGCC).

Where is Fengning pumped storage power station located?

The Fengning pumped storage hydropower plant in Hebei province (courtesy: State Grid Corporation of China) China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world.

Where is Fengning pumped storage hydroelectric project located?

The Fengning pumped storage hydroelectric facility will be connected with the Beijing-Tianjin-North Hebei grid. The Fengning pumped storage hydropower project is located in the Hebei Province of China. Image courtesy of sasac.gov.cn. Andritz supplies two variable speed pump turbines for the Fengning pumped storage project.

What is the world's biggest pumped storage power plant?

The 3.6GW Fengning pumped storage power station under construction in the Hebei Province of China will be the world's biggest pumped-storage hydroelectric power plant. Andritz supplies two variable speed pump turbines for the Fengning pumped storage project. Image courtesy of ANDRITZ.
