

First grade science solar power generation lesson plan

Overview

Watch season 2 of Global Problem Solvers: The Series as a class or assign the episodes for students to view individually as homework. The season consists of seven episodes, each 3–5 minutes long. You can start watching online on the series website or individual episodes from season 2. After watching, discuss how the.

Ask each group to briefly tell the class about the solar power system they designed (number of panels, wattage, cost, etc.). Compare.

Discussing or reading about these careers can help students make important connections between the in-class lesson and STEM job opportunities in the real world.

First grade science solar power generation lesson plan

First Grade, Astronomy Lesson Plans (0 results)

Embark on a cosmic journey with these astronomy science experiments. Explore how our solar system works and unravel the mysteries of the universe. Pick the ultimate first-grade science ...
