7 Best Portable Tire Inflators for Your Car, Truck, or Semi

Enter the Power Tank CO2 System--a standalone inflating system that uses a CO2 tank to inflate your tires. No power source or air compressors required, all you have to do is to get the 10 lbs tank refilled at any nearby shop, and you're all set to fill the equivalent of thirty 35" tires before needing a refill.

Can You Put Air in a Flat Tire? (Don't Make These Mistakes)

Can You Put Air in a Flat Tire? You can put air in a flat tire if it's been deflated, but if there's a puncture, the tire won't hold the air. Slow leaks will continue to leak as well, eventually leading to another flat tire. Usually, there's no reason to fill up a flat tire unless it
