

Free solar power generation still requires payment

Overview

Who can get free solar panels?

The scheme requires medium and large gas and electricity suppliers — including British Gas, EDF Energy, Ovo, Scottish Power, and SSE — to help households with energy efficiency measures, including free solar panels (or partial payment) if you are eligible.

What if I signed up for free solar panels?

If you signed up for free solar panels when the FIT rate was at its highest, back in 2011, we calculated that you could miss out on as much as £23,000 for a 4kWp system. You would also have saved more than £5,000 over 25 years from the electricity produced by the panels.

Are there government grants for solar panels?

There are currently three government grants available to help with the upfront costs of solar panel installation: ECO4: Funding for energy-efficient retrofits to fuel-poor households, or ones with occupants on certain benefits. Each grant has different eligibility criteria, as well as the benefits they provide.

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels* to understand how they made the most of the solar panel funding available to them.

How long do solar panels take to pay for themselves?

The size of the system, energy demand, geography, and government incentives all have a role in how quickly solar panels in the UK pay for themselves. In the UK, it typically takes solar panels 8 to 10 years to pay for themselves. Can I get a grant for solar panels?

Can I get a grant for solar panels in the UK?

Yes, you can potentially receive a grant for solar panels in the UK through available grants and incentives offered by local authorities or organisations. It is advisable to check with the latest information from official sources for the most up-to-date options. In the UK, how long do solar panels last?
